Subject: FW: Colorado Smelter Update and Briefing materials for next week
Attachments: Sampled_Properties_06012018.pdf; COSmelter_OU2_Historic Buildings.pdf; RA Background_Update_ColoSmelter_27June2018.docx

Here are the files with the background info. The 3 page word file is what I was thinking could be tweaked for the Administrator.

Subject: Colorado Smelter Update and Briefing materials for next week

Hello Doug, Andrew Mutter indicated that we should send you our materials directly for your review while you are away. I hope you find these helpful. Please contact me and Jasmin if there are other materials needed or if you need clarification on anything.

Attached are the links to both communication pieces that Jasmin, Andrew, Lisa, Rich and others are working on for Friday July 6.

Jasmin let me know that the press release is and will still be a work in progress. We had to change some of the initial comments. If anyone sees anything that is a major concern let us know. We thought the Site update might provide some good insight too, although today's update has better numbers (these are also in a document we are sending up to OSRTI).

Additionally, we have developed a Site Background and Update document for you, which mirrors a document we developed for OSRTI's review and which will be updated on a monthly basis to track our cleanup progress and funding utilization for the time being.

Thanks,

Communication Strategy

Fall/Winter Site Update

https://usepa.sharepoint.com/:b:/r/sites/R8_Work/ColoradoSmelter/Shared%20Documents/Handouts/CoSm%20SiteUpdate%20Fall%20Winter2017-2018-Final.pdf?csf=1

Additionally, I have attached the June 1, sampling and cleanup map and an OU2 map with the smelter buildings overlay. We will have these maps, or some similar updated versions mounted on large foam core for the site tour.

Sincerely,

Sabrina Forrest
